Information letter 1

Dear fans of figure skating-adults, children and their parents, coaches!
And especially our permanent participants of competitions!

The club of Figure Skating Fans "Silver dream" offers participation in the most popular traditional annual competitions - **“Russian winter 2019”**.

We will be glad to see you for the **thirteenth time!**

We wish you a confident and successful performance on the ice, warm meetings with friends from different parts of Russia and new interesting acquaintances!

Our meeting will be held in a town, which is an **important spiritual center of our country - Sergiev Posad.**

You should visit it a least once in your life!

Let's touch the origins of Russia together, get acquainted with the unique architectural ensemble of the Trinity-Sergius Lavra. Andrei Rublev painted an icon of the "Trinity" here. Within these walls the heirs of the throne were baptized. A young Peter took refuge here during the Streltsy uprising of 1682.

And, of course, we will write a new bright page in our "winter" history!

We wish you an unforgettable bright impression!
